

Passivity-Oriented Discrete-Time Voltage Controller Design for Grid-Forming Inverters [#20160] Hui Yu, Ma Awal, Hao Tu, Yuhua Du, Srdjan Lukic and Iqbal Husain, North Carolina State University, United States

P309 A DC Circuit Breaker with Artificial Zero Current Interruption [#20545] Shrishti Singh, Subhashish Bhattacharya and Leonard White, North Carolina State University, United States

P501 Efficient Power Transfer to Data Center Racks using Medium Voltage Inductive Coupling [#20214] Suwendu Samanta, Richard Beddingfield, Isaac Wong and Subhashish Bhattacharya, North Carolina State University, Raleigh, NC, United States; National Energy Technology Laboratory, United States

P714 A Parallel Topology for Modularized IPT Systems [#19195] Hongsheng Hu, Tao Cai, Xiaoming Zhang, Jintao Niu, Hao Feng and Shanxu Duan, Huazhong University of Science and Technology, China; North Carolina State University, United States

P1128 An Optimized SM Fault-Tolerant Control Method for MMC-based HVDC Applications [#20235] Mohammed Alharbi, Semih Isik and Subhashish Bhattacharya, North Carolina State University, United States

P1313 FEA based Separation of Torque Components in Interior Permanent Magnet Machines [#20680] Mohamed Zubair M Jaffar and Iqbal Husain, North Carolina State University, United States

P1314 Modeling of Electromagnetic Torque in Synchronous Reluctance Machines using Inductance Harmonics [#20735] Mazharul Chowdhury, Mohammad Islam and Iqbal Husain, Halla Mechatronics, United States; North Carolina State University, United States

P1325 Extended Field Weakening Range in Slotless/Coreless Permanent Magnet Machines [#20676] Md Sariful Islam, Rajib Mikail and Iqbal Husain, North Carolina State University, United States; ABB Inc., United States

Effect of Inverter Output dv/dt with Respect to Gate Resistance and Loss Comparison with dv/dt Filters for SiC MOSFET based High Speed Machine Drive Applications [#19684] Heonyoung Kim, Sayan Acharya, Anup Anurag, Byeong-Heon Kim and Subhashish Bhattacharya, North Carolina State University, United States

P2105 High-Efficiency Silicon Carbide (SiC) Converter Using Paralleled Discrete Devices in Energy Storage Systems [#20204] Zheyu Zhang, Hao Tu, Xu She, Tomas Sadilek, Ramanujam Ramabhadran, Huan Hu and William Earls, General Electric, United States; North Carolina State University, United States; United Technologies, United States

P3511 High-isolation low-coupling-capacitance standalone gate drive power supply for SiC-based medium-voltage power electronic systems [#20599] Srdjan Srdic, Fei Teng and Srdjan Lukic, North Carolina State University, United States

P5304 Accurate Characterization and Emulation of Active Bridge Magnetic Efficiencies with Novel Excitation Circuit [#19340] Richard Beddingfield, Subhashish Bhattacharya and Paul Ohodnicki, Jr., ORISE Fellow, National Energy Technology Lab, United States; North Carolina State University, United States; National Energy Technology Lab, United States

P5309 Shielding of Leakage Flux Induced Losses in High Power, Medium Frequency Transformers [#19338] Richard Beddingfield, Subhashish Bhattacharya and Paul Ohodnicki, Jr., ORISE Fellow, National Energy Technology Lab, United States; North Carolina State University, United States; National Energy Technology Lab, United States

Observer Based Admittance Shaping for Resonance Damping in Voltage Source Converters with LCL Filter [#20672] Ma Awal, Hui Yu, Leandro Della Flora, Wensong Yu, Srdjan Lukic and Iqbal Husain, North Carolina State University, United States; Danfoss Drives, United States

Predictive Current Control of Mutually Coupled Switched Reluctance Motors Using Net Flux Method [#20746] Siddharth Mehta, Iqbal Husain and Prerit Pramod, North Carolina State University, United States; Nexteer Automotive, United States

Adaptive Control of a Hybrid Energy Storage System for Wave Energy Conversion Application [#20375] Apoorv Agarwal, Vishnu Mahadeva Iyer, Anup Anurag and Subhashish Bhattacharya, North Carolina State University, United States

AC-DC Converter with Hybrid Three-Level and Two-Level Legs Using Space Vector Modulation for Medium-Voltage SST Applications [#20550] Dakai Wang, Wensong Yu, Siyuan Chen and David Philpott, North Carolina State University, United States

Circulating Current Suppression in Multi-cell Series-parallel Converter for Cost-effective Medium-voltage Solid-state transformer [#20386] Jehyuk Won, Hao Feng, Xinyu Liang, Srdjan Srdic and Srdjan Lukic, North Carolina State University, United States

Control of Circulating Current to Minimize the Rating of the Energy Storage Device in Modular Multilevel Converters [#20652] Mohammed Alharbi, Semih Isik and Subhashish Bhattacharya, North Carolina State University, United States

Protection Coordination System Design for a Converter Dominated Standalone DC Microgrid [#20414] Md Rifat Kaisar Rachi, Mehnaz Akhter Khan and Iqbal Husain, North Carolina State University, United States

Application of High Performance FPGA to Boost Bandwidth of SiC Shunt Active Power Filter [#20727] Li Yang, Yukun Luo, M.A. Awal, Wensong Yu and Iqbal Husain, North Carolina State University, United States

FPGA Based High Bandwidth Motor Emulator for Interior Permanent Machine Utilizing SiC Power Converter [#19536] Yukun Luo, Ma Awal, Li Yang, Wensong Yu and Iqbal Husain, North Carolina State University, United States

Small Signal Model of Mutually Coupled Switched Reluctance Motors Based on Net Flux Method [#20734] Siddharth Mehta, Iqbal Husain, Prerit Pramod and Md Ashfanoo Kabir, North Carolina State University, United States; Nexteer Automotive, United States; ABB Corporate Research, United States

An Active Voltage Stabilizer for a Generic DC Microgrid [#20324] Vishnu Mahadeva Iyer, Srinivas Gulur, Subhashish Bhattacharya, Jun Kikuchi, Srikanthan Sridharan, Ke Zou and Chingchi Chen, NC State University, United States; Ford Motor Company, United States

P5311 50kW Nano-Crystalline Core Based Three Port Transformer for Triple Active Bridge Converter [#20659] Ritwik Chattopadhyay, Srinivas Gulur, Viju Nair, Subhashish Bhattacharya and Paul R. Ohodnicki, NC State University, United States; National Energy Technology Laboratory, United States

Implementation of Flexible Large Power Transformers Using Modular Solid State Transformer Topologies Enabled by SiC Devices [#20671] Venkat NagSomeswar Rao Jakka, Harshit Nath, Subhashish Bhattacharya and Acharya Sayan, NC State University, United States

A Partial Power Converter Interface for Battery Energy Storage Integration with a DC Microgrid [#20327] Vishnu Mahadeva Iyer, Srinivas Gulur, Subhashish Bhattacharya and Ramanujam Ramabhadran, NC State University, United States; GE Aviation, United States

Voltage Balancing of Series Connected Clamping Diodes in Medium Voltage NPC Converter enabled by Gen-3 10 kV SiC MOSFETs for Asynchronous Micro-Grid Power Conditioning System [#20422] Venkat Nag Someswar Rao Jakka, Ashish Kumar, Sanket Parashar, Sagar Kumar Rastogi, Nithin Kolli, Ronak Jaiswal and Subhashish Bhattacharya, NC State University, United States

Medium Voltage DC Bus Enabled by Series Connection of SiC Mosfet Based Three Port DC-DC Converters [#20638] Ritwik Chattopadhyay, Viju Nair, Srinivas Gulur, Subhashish Bhattacharya and Paul R. Ohodnicki, NC State University, United States; National Energy Technology Laboratory, United States

A low-inductance sectional busbar for snubberless operation of SiC-based EV traction inverters
[#20497] Srdjan Srdic, Chi Zhang and Srdjan Lukic, FREEDM Center at NC State, United States

Optimization of DC-Link Decoupling Snubber Circuit for SiC-based EV Traction Inverters
[#20513] Chi Zhang, Srdjan Srdic and Srdjan Lukic, FREEDM Center at NC State, United States

Design of Modular Auxiliary Gate Driver Power Supply for medium voltage converter system
[#20646] Sanket Parashar, RajKumar Kokkonda and Subhashish Bhattacharya, NCSU (POWER AMERICA), India; NCSU, India
